

Internet Gateway Services

Reliable Internet Gateway

Internet access plays a vital role in every aspect of business. This reliance means you need the highest level of Internet gateway service, with quality and reliability as first priorities. Whether you need a primary Internet service provider or a backup provider; Manitoba Hydro Telecom (MHT) has the solution. MHT currently serves large organizations in the public and private sector, as well as other Internet service providers.

Contact us for a comprehensive analysis of how MHT can meet your Internet needs: info@mht.mb.ca

Location
